Attend the second Sleep and Breathing Conference

"Building on the success of the inaugural 2011 Sleep and Breathing Conference, the next meeting will continue to address the knowledge deficit relating to this highly prevalent clinical problem; the 2013 Conference will bring in a wide range of experts to provide a comprehensive update and to further relevant education and professional development."

Professor Walter McNicholas & Professor Claudio Bassetti
Joint Chairs

The Sleep and Breathing Conference is the largest pan-European meeting of its type and the only meeting offering an integrated approach to the investigation and treatment of sleep disorders. Register for the second Sleep and Breathing Conference and join thousands of other medical professionals with an interest in respiratory sleep disorders and other related dyssomnias. In Berlin 2013, the focus remains predominantly on sleep breathing disorders but our programme will extend to cover sleep-related areas of paediatrics, obesity, cardiovascular disorders, diabetes, psychology, psychiatry and neurology.
